KEY PROJECTS

FULL-STACK & WEB DEVELOPMENT

Modern Responsive Portfolio Website — *HTML5, CSS3, JavaScript*

- Designed and developed a sleek personal portfolio featuring light/dark theme toggles, smooth animations, and optimized load times.

Interactive School Management Website — *PHP, MySQL, HTML, CSS, JS*

- Built a multi-page school portal featuring dynamic event updates, photo galleries, and secure student/teacher login modules.

Government Technical Institute Information Portal — *PHP, MySQL, Bootstrap, HTML, CSS*

- Engineered a comprehensive institute portal displaying course listings, faculty directories, announcements, and an administrative control panel.

Little Sprouts – Daycare Management System — *PHP, MySQL, JavaScript, HTML, CSS*

- Developed a daycare management system with child attendance records, staff tracking, dynamic job applications, and contact forms.

DIGITAL MARKETING & CONTENT STRATEGY

Instagram Content & Growth Strategy — *Canva, Instagram Insights, Content Planning*

- Formulated a branded post grid, weekly posting schedules, and caption strategies to elevate visual identity and drive engagement for startup profiles.

Social Media Management & Digital Ads — *Meta Ads, Google Ads, Later*

- Designed targeted ad campaigns and structured content calendars focused on audience reach, lead generation, and brand consistency.

EDUCATION

Bachelor of Science in Robotics and Intelligent Systems — *University of Engineering and Technology (UET), Lahore | 2025 – Present*

PROFESSIONAL EXPERIENCE

Freelance Web Developer & Social Media Specialist (*Self-Employed*)

- Building end-to-end custom web solutions, optimizing digital performance, and managing targeted social media marketing campaigns for small businesses and personal brands.
