Lahore, Punjab, Pakistan | +92-336-6625716 | connect.muhammadabubakar@gmail.com

Portfolio: connect-muhammad-abubakar.github.io/My-Portfolio | GitHub: github.com/connect-muhammad-abubakar

PROFILE SUMMARY

Results-driven Full Stack Developer and Technical Specialist seeking part-time or contract remote web maintenance and development roles. Equipped with 3 years of practical experience engineering responsive web applications, building custom PHP/MySQL portals, and maintaining digital marketing assets. Experienced in resolving cross-browser bugs, setting up ad tracking infrastructure, and managing site performance asynchronously with minimal supervision.

TECHNICAL SKILLS

Web Development & Backend: PHP, MySQLi, JavaScript (Vanilla JS), HTML5, CSS3, Bootstrap, REST APIs

Developer Tools & Workflows: Git, GitHub, VS Code, JSON, Web Performance Optimization, Responsive Design

UI/UX & Content: Figma, Canva, Wireframing, UI Layout Optimization

Digital Marketing & Analytics: Meta Ads (Facebook/Instagram), Google Ads, SEO Optimization, Ad Tracking/Pixel Integration

PROFESSIONAL EXPERIENCE

Freelance Web Developer & Technical Support Specialist — Self-Employed

2023 – Present

- Engineer, deploy, and maintain custom web applications and landing pages for small businesses, ensuring high performance and responsive UI.
- Troubleshoot PHP script bugs, correct database schema issues, and optimize MySQL queries to improve site load times and system reliability.
- Set up Meta Pixel and Google Analytics tracking scripts on custom client sites to support targeted marketing campaigns and conversion analysis.

KEY PROJECTS

FULL-STACK & WEB DEVELOPMENT

Interactive School Management Website — PHP, MySQL, JavaScript, HTML, CSS

- Built a dynamic multi-role school web portal with user authentication, dynamic event feeds, photo galleries, and administrative panel controls.

Little Sprouts – Daycare Management System — PHP, MySQL, JavaScript, HTML, CSS

- Developed a full-stack management web app handling child attendance records, staff tracking, dynamic job application forms, and relational MySQL storage.

Government Technical Institute Information Portal — PHP, MySQL, Bootstrap, HTML, CSS

- Engineered an institute portal displaying course listings, faculty directories, and an administrative control panel for dynamic announcement posting.

Modern Responsive Portfolio & Web Demos — HTML5, CSS3, Vanilla JS, GitHub Pages

- Designed a fast personal portfolio featuring dynamic theme toggling, modular JavaScript UI components, and automated deployment via GitHub Pages.

DIGITAL MARKETING & WEB STRATEGY

Social Media Management & Digital Ad Campaigns — Meta Ads, Google Ads, Analytics

- Structured targeted paid ad campaigns and content strategies focused on audience acquisition, lead generation, and web conversion tracking.

EDUCATION

Bachelor of Science in Robotics and Intelligent Systems — University of Engineering and Technology (UET), Lahore | 2025 – Present
